Created by Gabriel Communications, the hit variety show and musical performance program has brought classic country, bluegrass and Gospel music artists into the hearts and homes of America for years. In 1996, long-time disc jockey and actor Larry Black (who appeared in the films *October Sky* and *Ernest Goes To Camp*) had a simple idea – he wanted to gather the great people that shaped the country, bluegrass and Gospel genres, talk about their journeys and maybe have them sing a few songs. What resulted was pure magic, and the rest is history. Larry's Country Diner Roadshow provides fans the unique opportunity to experience the hit tv show with its full cast and a special guest appearance at venues around the country. Don't miss the opportunity to bring this show to your venue as there are limited dates available.
